Insert A-Frame

900 x 1200 mm corflute insert

Artwork setup for the printed corflute inserts in our 900 x 1200 mm insert A-frame. The inserts slide in from the top of the frame, so you can change your message in seconds and re-order just the inserts later. Each frame takes two inserts: a front and a back.

Before you send your file

- ☐ **Send a print-ready PDF.** No crop marks, trim marks or registration marks please.
- ☐ **CMYK colour mode.** RGB files can print duller or shift colour, so convert before you export.
- ☐ **Outline your fonts.** Convert all text to outlines so nothing gets swapped out.
- ☐ **Embed everything.** Images and placed files must be embedded, not linked.
- ☐ **Build at 100% scale.** Our template is full size: set your artboard to the artwork size including bleed.
- ☐ **Image resolution.** At least 130 ppi at full printed size (150 ppi or more looks crisper up close).
- ☐ **Bleed.** Run background colours and images out to the bleed line, 1 mm past the finished edge all the way round.
- ☐ **Safe area.** The frame channel covers the edges of the insert. Keep logos and text at least 25 mm from the top and 20 mm from the sides and bottom.
- ☐ **Two sides.** Supply a two-page PDF: page 1 is the front, page 2 is the back. Same design both sides? Just send it twice.
- ☐ **Spot colours.** If you need a Pantone match, specify it from the PANTONE+ Solid Coated library.

Changing inserts

Slide the old insert up and out of the top of the frame, then slide the new one back in. Replacement inserts can be ordered any time, without a new frame.

Sending us your file

Email your finished PDF to **infothesignageshed@gmail.com**. If it's too big to attach, share a Google Drive or WeTransfer link instead. We'll check it over and send you a proof before anything goes to print.
