ARTWORK GUIDE

# Pull Up Banner

## Luxury | 850mm wide Shopping Centre

Everything you need to set up artwork for our luxury pull up banner, 850 mm wide. This is the Shopping Centre size: the whole stand stands no more than 1,400 mm tall including the base, to suit centres with height limits. The finished size below is the visible graphic. Use our matching template and you can't go wrong.

Bleed line — Finished edge ····· Safe area — Base zone

## Key measurements

| | |
|---|---|
| **Artwork size incl. bleed** | 890 x 1,355 mm |
| **Finished (visible) size** | 850 x 1,315 mm |
| **Bleed** | 20 mm on every edge |
| **Safe area** | 770 x 1,175 mm (40 mm top and sides, 100 mm bottom) |
| **Base zone** | Bottom 100 mm of the visible graphic: background only |
| **Total stand height** | Up to 1,400 mm including the base |
| **Printing** | Single sided |
| **Our template** | 100% scale (full size) |

## Before you send your file

- [ ] **Send a print-ready PDF.** No crop marks, trim marks or registration marks please.
- [ ] **CMYK colour mode.** RGB files can print duller or shift colour, so convert before you export.
- [ ] **Outline your fonts.** Convert all text to outlines so nothing gets swapped out.
- [ ] **Embed everything.** Images and placed files must be embedded, not linked.
- [ ] **Build at 100% scale.** Our template is full size, so set your artboard to the finished size plus 20 mm bleed on every edge.
- [ ] **Image resolution.** At least 130 ppi at full printed size (150 ppi or more looks crisper up close).
- [ ] **Bleed.** Run background colours and images right out to the bleed line, 20 mm past the finished edge all the way round.
- [ ] **Safe area.** Keep logos, text and faces at least 40 mm in from the top and sides.
- [ ] **Base zone.** Keep text and logos out of the bottom 100 mm. It sits right down at the base where it's hard to read and can be partly covered by the base.
- [ ] **Eye level sells.** Put your logo and main message in the top third, where people see it first. Contact details can go lower down.
- [ ] **Spot colours.** If you need a Pantone match, specify it from the PANTONE+ Solid Coated library.

## How it works

The printed banner is rolled up inside the base. To set up, pull it up by the top rail and hook the rail onto the support pole. To pack away, lift the rail off the pole and let the banner roll back down slowly. Indoor use is best: a pull up banner catches the wind like a sail.

## About this stand

Our heavier-duty pull up banner with a solid, premium-feel aluminium base and a 3 year warranty on the stand. 850mm wide stands use one support pole; 1200mm wide stands use two. Carry bag included. Packed about 930 x 190 x 100 mm (4.7 kg) for 850mm wide, or 1280 x 190 x 100 mm (6.5 kg) for 1200mm wide. Printed in full colour on tear-resistant, low-curl blockout PVC banner material.

## Sending us your file

Email your finished PDF to **infothesignageshed@gmail.com**. If it's too big to attach, share a Google Drive or WeTransfer link instead. We'll check it over and send you a proof before anything goes to print.
