Before you send your file

- [ ] **Send a print-ready PDF.** No crop marks, trim marks or registration marks please. We take care of the finishing.
- [ ] **CMYK colour mode.** RGB files can print duller or shift colour on fabric, so convert before you export.
- [ ] **Outline your fonts.** Convert all text to outlines so nothing gets swapped out.
- [ ] **Embed everything.** Images and placed files must be embedded, not linked.
- [ ] **Correct size.** Build at 100%, or at exactly the scale stated on our template. Our templates are set to 10% scale.
- [ ] **Image resolution.** 130 to 300 ppi measured at full printed size. If you work at 10% scale, that means 1,300 to 3,000 ppi in your file.
- [ ] **Bleed.** Run background colours and images right out to the bleed line, 27 mm past the finished edge all the way round.
- [ ] **Spot colours.** If you need a Pantone match, specify it from the PANTONE+ Solid Coated library.
- [ ] **Safe area.** Keep logos and text inside the table top circle. The drop gathers into folds, so it suits colour, pattern or a big simple graphic.
- [ ] **Front and back.** The bottom of the template is the front. If your logo should face the guests, put it near the front edge of the table top.

How it sits on the table

Centre the throw on the table so the table top circle sits flat on top. The rest hangs down to the floor and falls into soft folds.

About this product

Printed on 250gsm polyester fabric with hemmed edges. Machine washable and reusable. To remove creases after transport, use a garment steamer, or a warm iron with a pressing cloth between the iron and the print.
