ARTWORK GUIDE

Table Runner

Custom size

Need a runner that isn't one of our standard sizes? We can make front drop and side drop runners to your measurements. Tell us the width and length you need, then set your artboard to that size plus 27 mm bleed on every edge.

Fold lines	Measure your table top and mark where it starts and ends on the runner
Template	Ask us and we'll make one to your size

Before you send your file

- [ ] **Send a print-ready PDF.** No crop marks, trim marks or registration marks please. We take care of the finishing.
- [ ] **CMYK colour mode.** RGB files can print duller or shift colour on fabric, so convert before you export.
- [ ] **Outline your fonts.** Convert all text to outlines so nothing gets swapped out.
- [ ] **Embed everything.** Images and placed files must be embedded, not linked.
- [ ] **Correct size.** Build at 100%, or at exactly the scale stated on our template. Our templates are set to 10% scale.
- [ ] **Image resolution.** 130 to 300 ppi measured at full printed size. If you work at 10% scale, that means 1,300 to 3,000 ppi in your file.
- [ ] **Bleed.** Run background colours and images right out to the bleed line, 27 mm past the finished edge all the way round.
- [ ] **Spot colours.** If you need a Pantone match, specify it from the PANTONE+ Solid Coated library.
- [ ] **Measure the table.** Check the table depth (front drop runner) or width (side drop runner) so you know where the folds fall, and keep text away from them.

How it sits on the table

A front drop runner lies across the depth of the table and hangs down the front and back. A side drop runner lies across the table and hangs over each side.

About this product
