ARTWORK GUIDE

Table Runner

Side drop | 1,830 x 250 mm

Everything you need to set up artwork for our 1830 x 250 mm side drop table runner. It's a long, narrow strip that lies across the table top and hangs down both sides, so it's seen from the front and the ends.

Before you send your file

- [ ] **Send a print-ready PDF.** No crop marks, trim marks or registration marks please. We take care of the finishing.
- [ ] **CMYK colour mode.** RGB files can print duller or shift colour on fabric, so convert before you export.
- [ ] **Outline your fonts.** Convert all text to outlines so nothing gets swapped out.
- [ ] **Embed everything.** Images and placed files must be embedded, not linked.
- [ ] **Correct size.** Build at 100%, or at exactly the scale stated on our template. Our templates are set to 10% scale.
- [ ] **Image resolution.** 130 to 300 ppi measured at full printed size. If you work at 10% scale, that means 1,300 to 3,000 ppi in your file.
- [ ] **Bleed.** Run background colours and images right out to the bleed line, 27 mm past the finished edge all the way round.
- [ ] **Spot colours.** If you need a Pantone match, specify it from the PANTONE+ Solid Coated library.
- [ ] **Safe area.** Keep text and logos at least 40 mm in from every edge, and clear of the fold lines where the runner bends over the table edges.
- [ ] **Reading direction.** The two drops hang down opposite sides of the table. Text on a drop should run along the strip so it reads when hanging.

How it sits on the table

Lay the runner across the table so the marked table top section sits flat on top and the left and right drops hang over each side.

About this product
